¹As used in this inventory, "historical" refers to products that were manufactured prior to 2014 and talc used in those products.

²As used in this column, "1" indicates a full, sealed container of Johnson's® Baby Powder ranging in weight from 1.5 oz. to 22 oz. Samples designated "0.5" were transferred from their original containers to sterile 5 oz. cups and range in weight from approximately 2 oz. to 5 oz.

³To the extent that PTI Royston, LLC has multiple samples of Johnson's® Baby Powder from the same lot, in general only one has been included in this inventory.

¹This list represents the historical display and office samples of Johnson's® Baby Powder or Shower to Shower® ("Talcum Powder Products") cosmetic talc located by PTI Royston, LLC. "Historical" is defined by the Agreed Order and Stipulation Regarding the Johnson & Johnson Defendants' Production of Talcum Powder Products and Talc Samples as Talcum Powder Products manufactured prior to 2014 and talc used in those products. ECF No. 4032. These Talcum Powder Product samples were located in company displays and employee offices at PTI Royston, LLC. As such, PTI Royston, LLC makes no representations as to whether or not (1) the samples are comprised of marketed talcum powder; (2) the chain of custody can be established; or (3) the samples were stored in a manner to avoid contamination by other particulates.
